

# DIA in Commissioning: Platforms, Datasets, Metrics

Eric Bellm

Alert Production Science Lead

Rubin Project & Community Workshop | 9 August 2022

# Rubin commissioning data will be processed & analyzed in the USDF at SLAC.

Rubin commissioning data will only be available at the USDF.

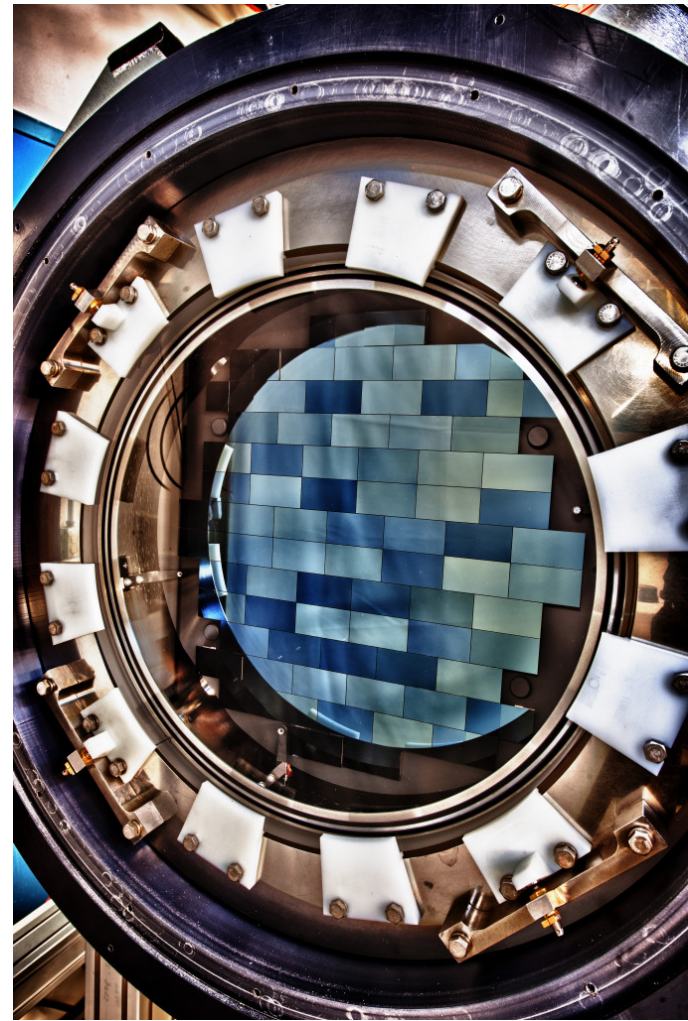

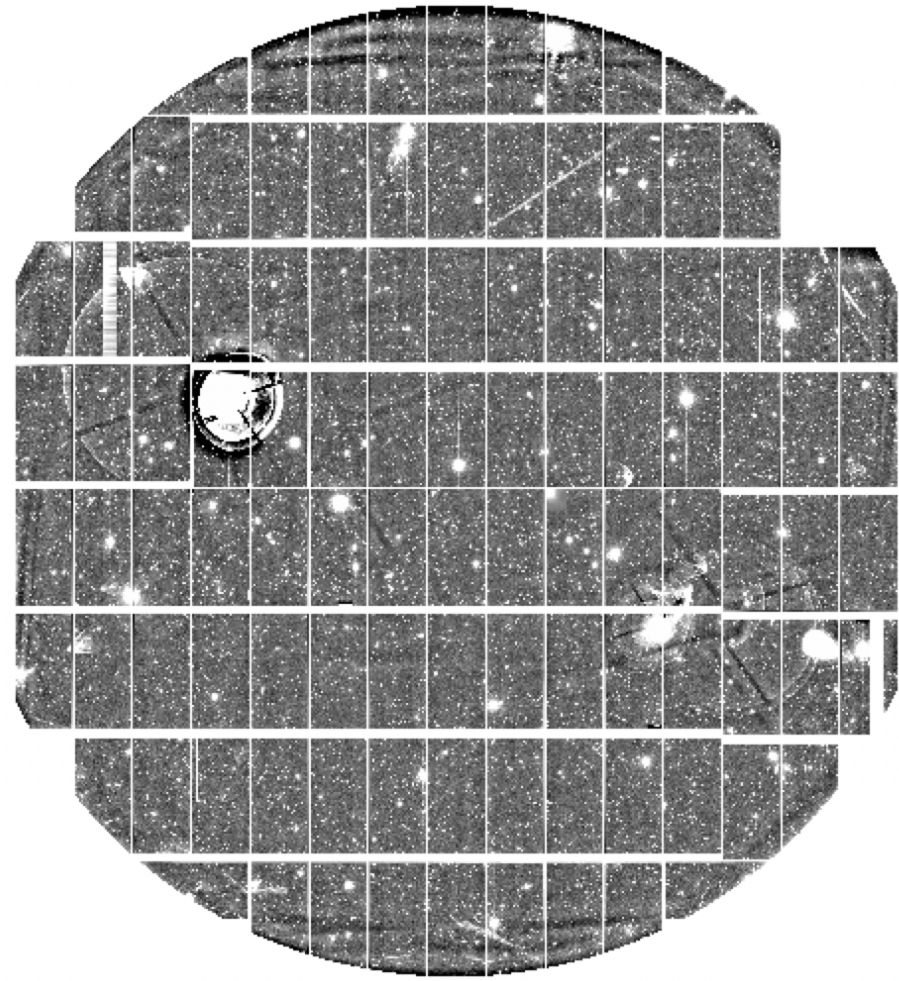

Named in-kind commissioning team members are being onboarded to SLAC ~now. (See next session!)

We strongly suggest commissioning team members begin migrating processing and analysis of precursor datasets.

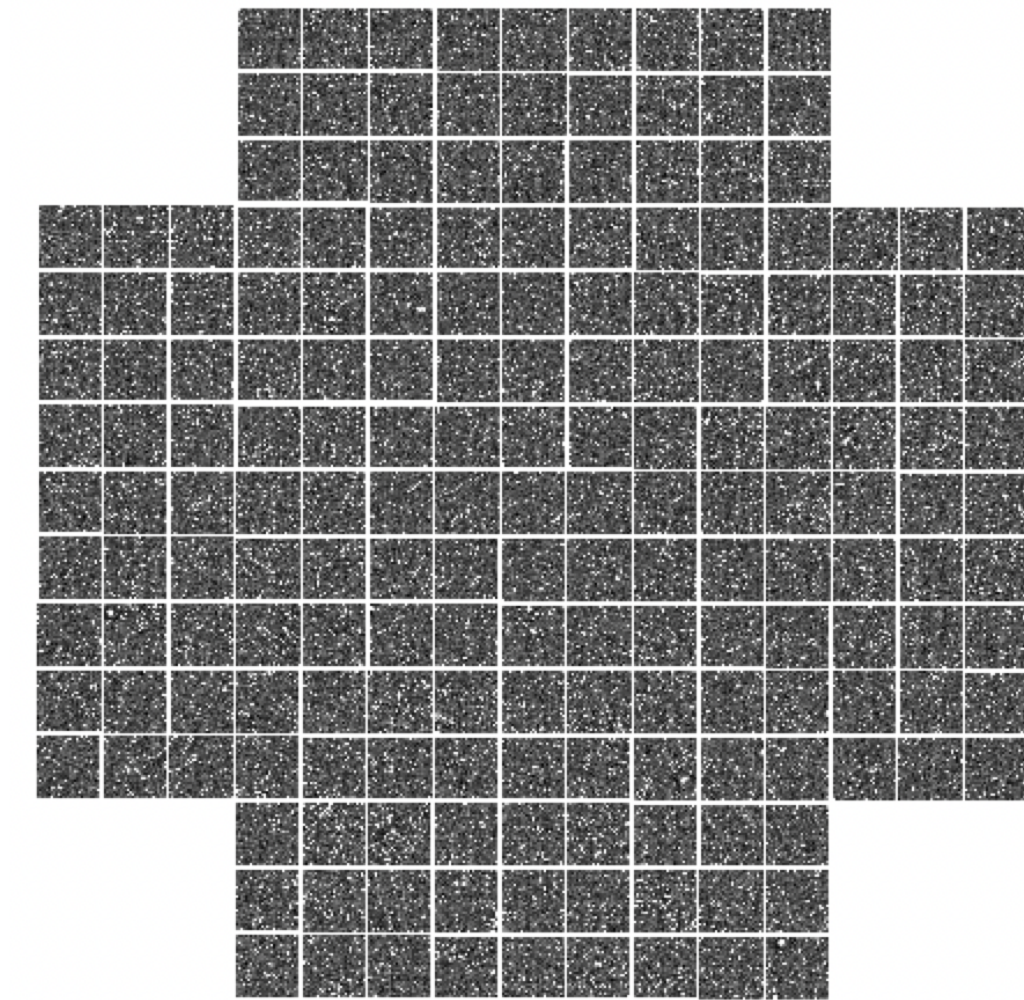

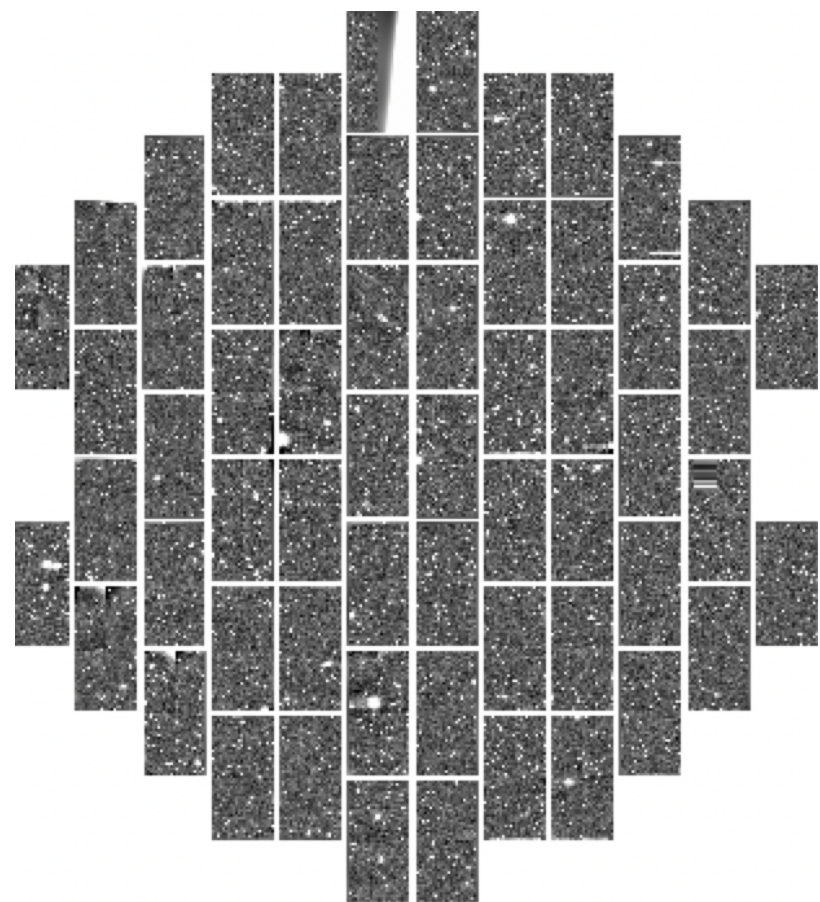

# A variety of precursor DIA datasets already exist.

**Dark Energy Camera (DECam):**  
HiTS  
Saha Bulge  
(DECAT)

**DESC DC2**  
image  
simulations

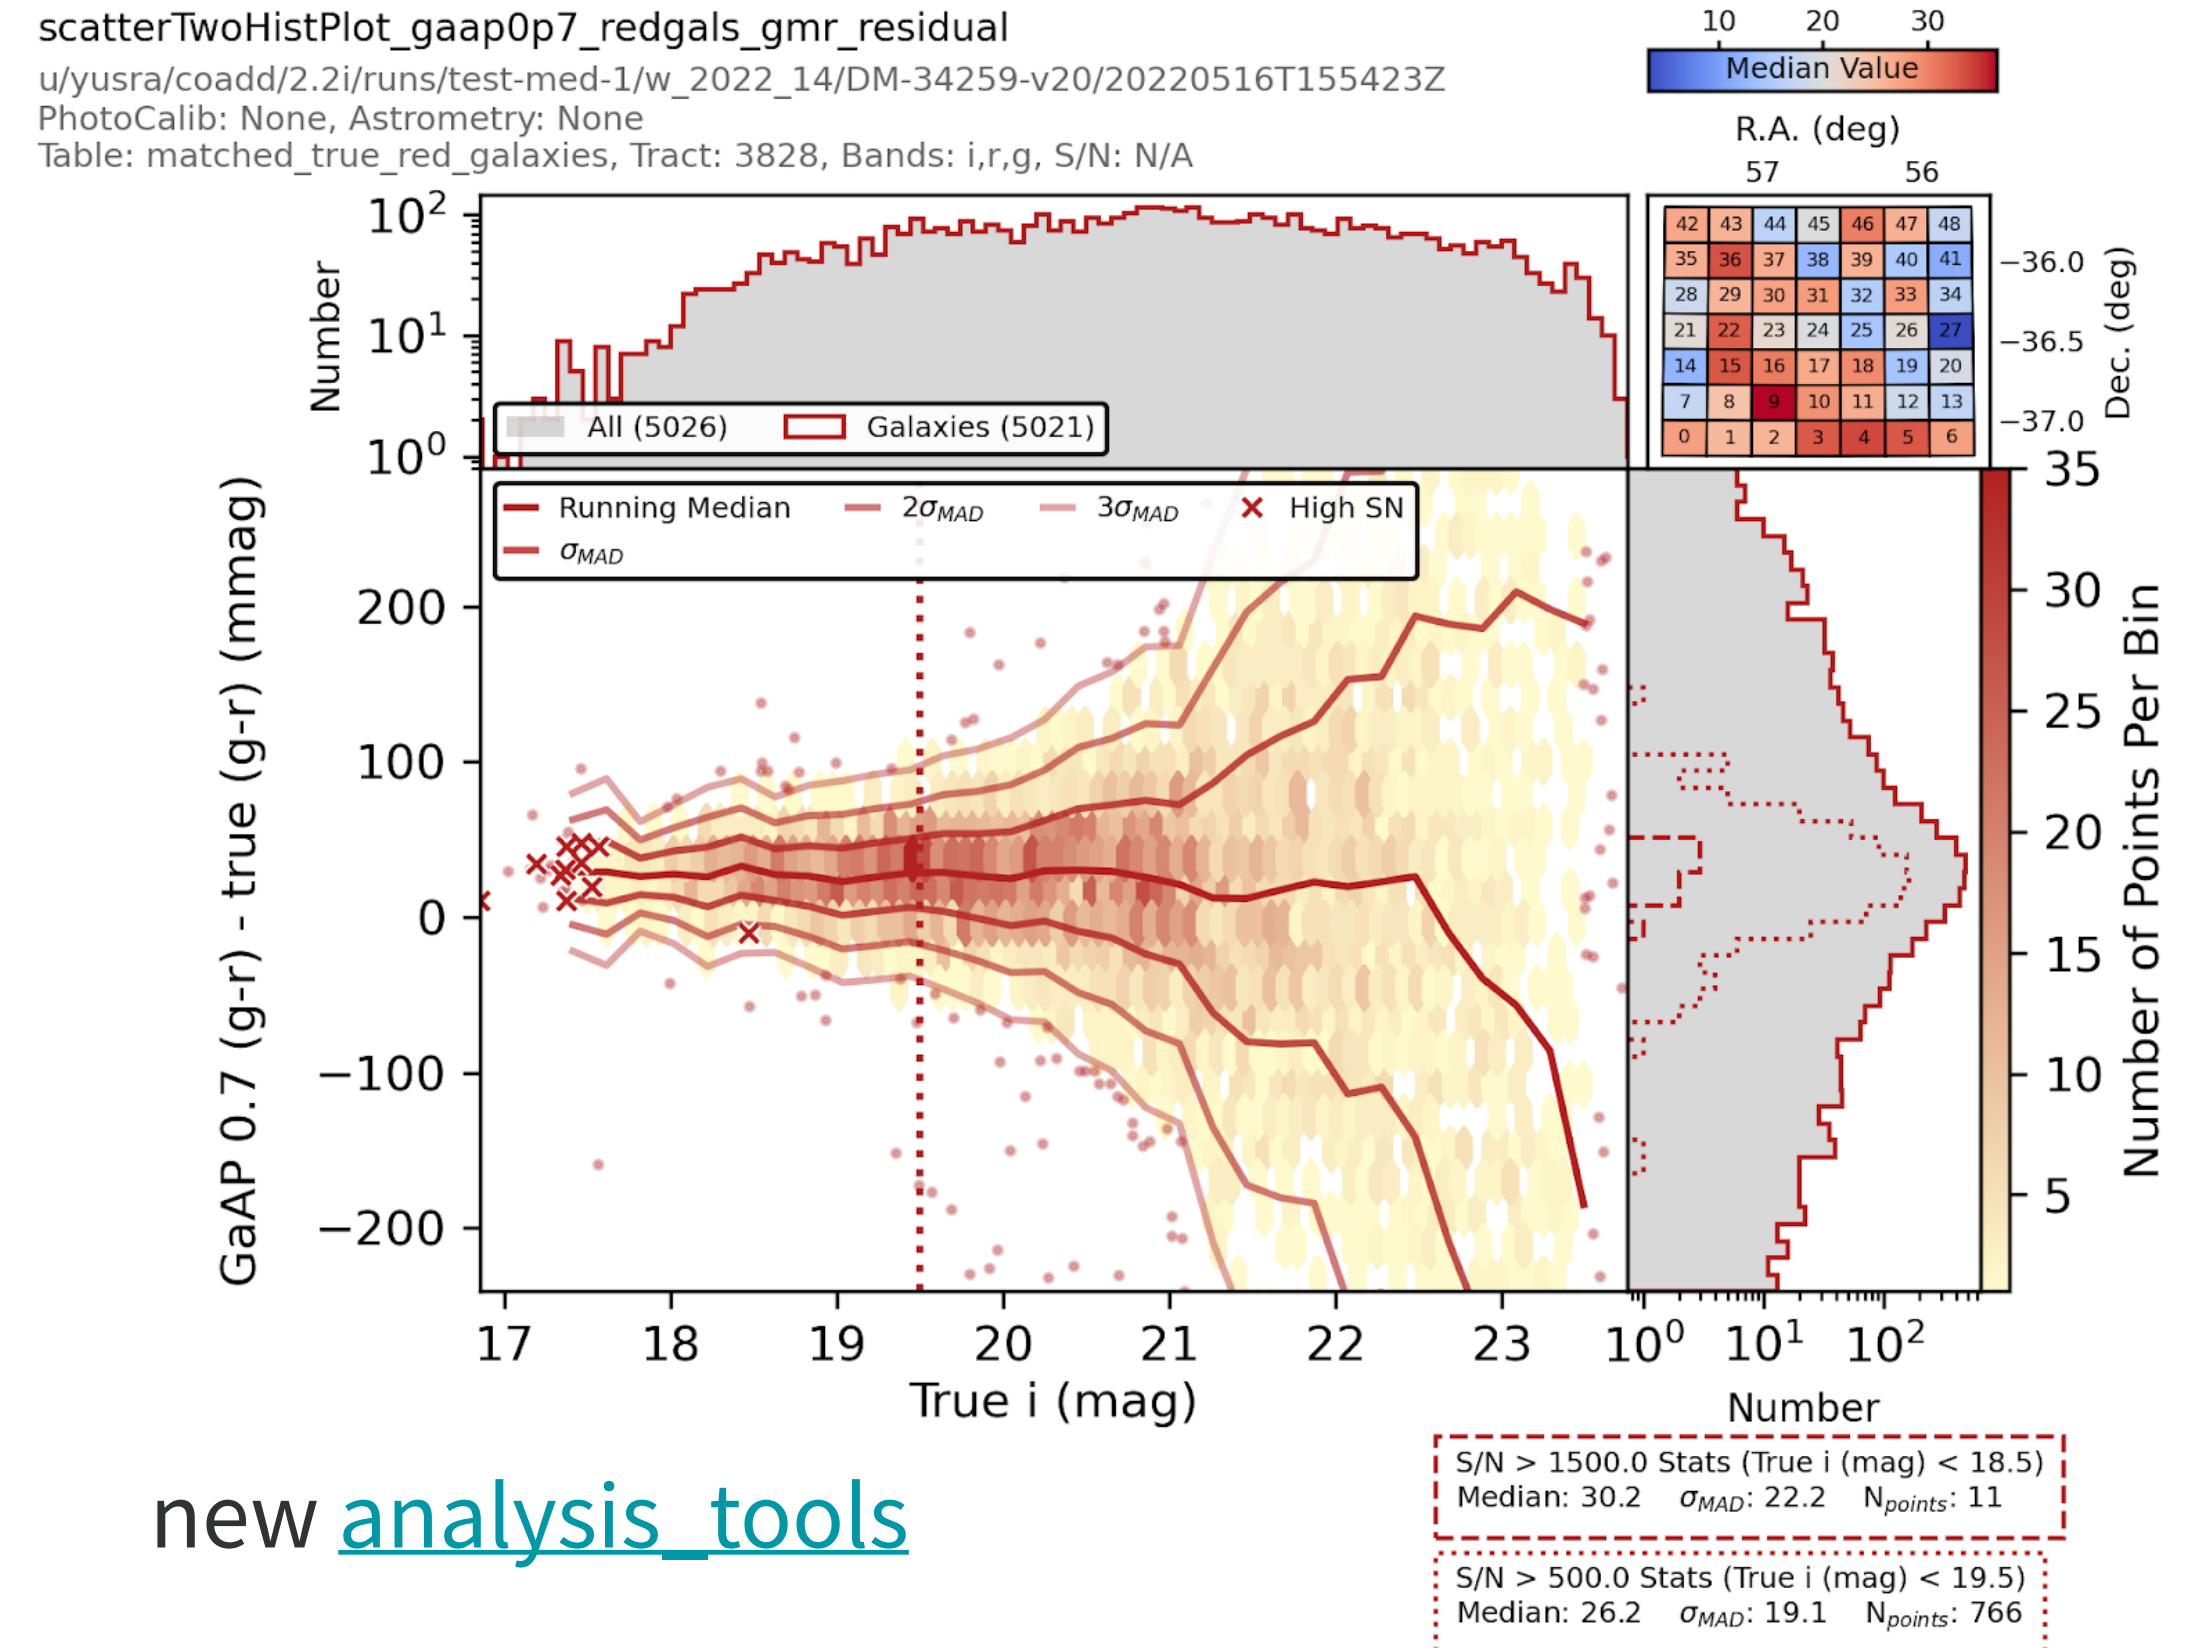

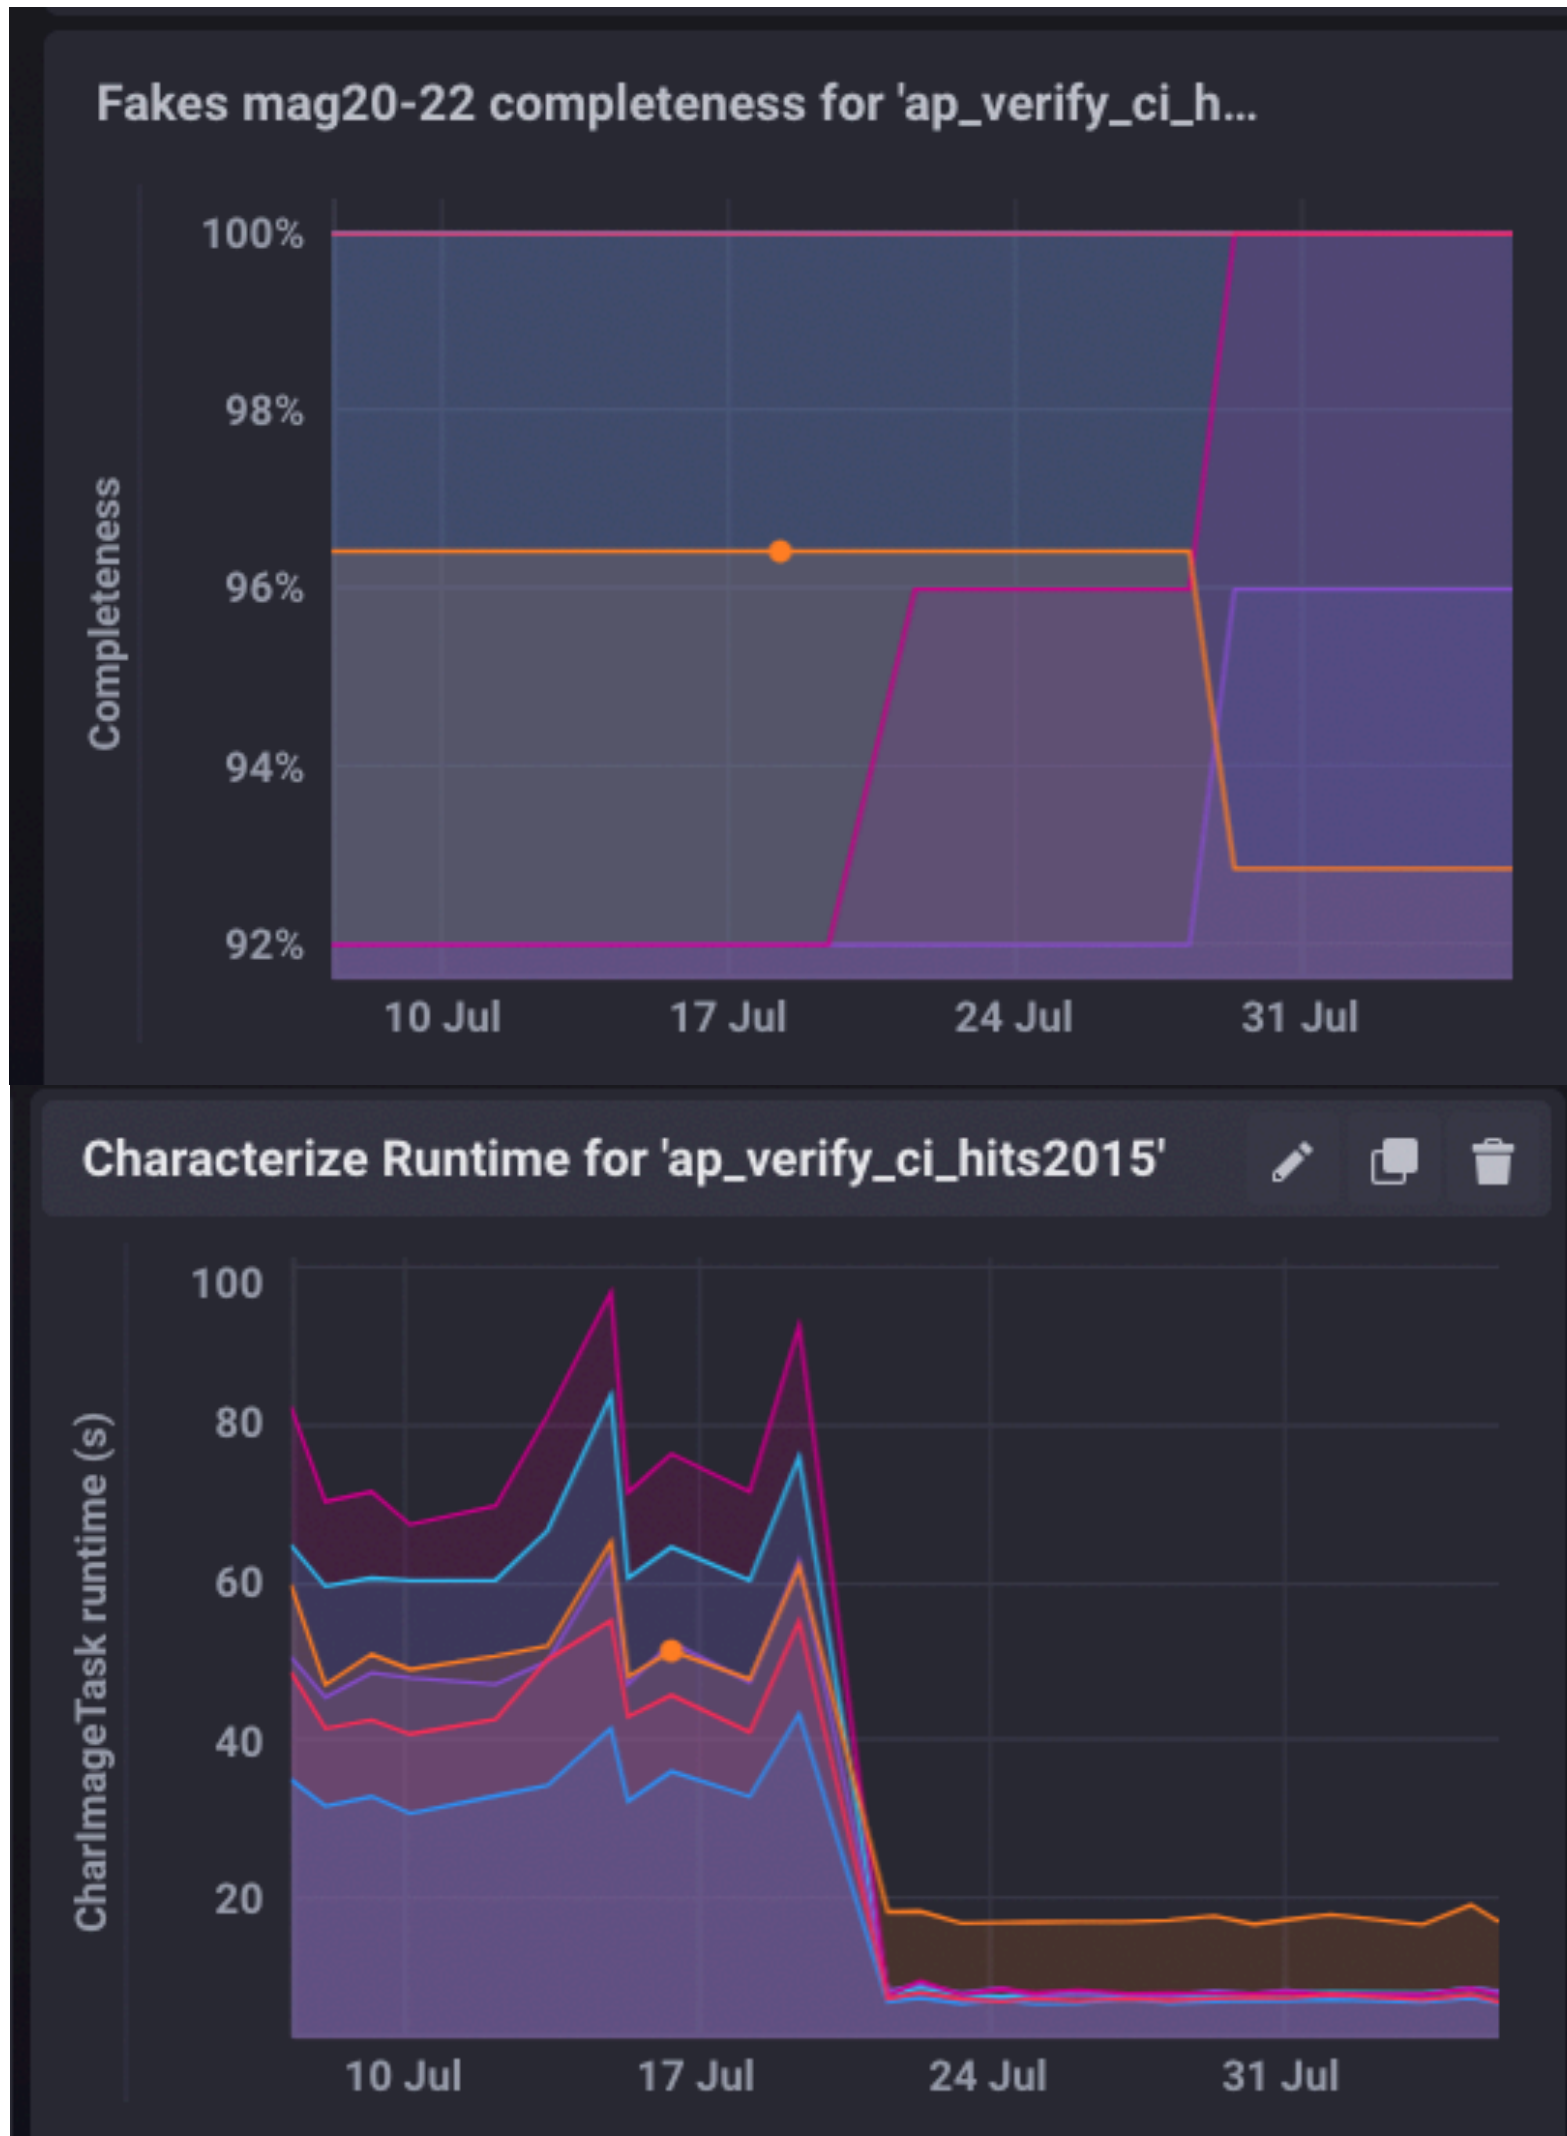

**Hyper SuprimeCam (HSC):**  
COSMOS

(soon) **AuxTel LATISS** ■

Identifying & building a new DIA dataset with calibrations is time-consuming!  
Let's discuss what else we need.

# Rubin is developing a range of tooling for computing metrics.

See [in-kind onboarding](#)  
(next PCW session) &  
[pipelines bootcamp](#)

# There's lots to do in DIA!

---

## Near-term DM priorities

- Finish diffim refactor
- Better-seeing science images
- Regular reprocessing of precursor datasets
- Completeness/purity/latency assessments
- ML spuriousness algorithms
- Pipeline infrastructure (prompt processing, alerts)

## Where you can help

- Look at data, find & report systematic problems!
- Truth labels for ML
- Algorithms for selecting incremental template inputs
- ZOGY testing
- Dipoles, bright stars, trails...

# Let's work together to get the most out of a very compressed commissioning period!

Due	Name
29-Sep-2022	TMA Contract Complete
30-Sep-2022	EPO Construction Finish
20-Mar-2023	COMP: Camera Pre-Ship Review at SLAC
28-Mar-2023	Dome Complete
17-May-2023	3-Mirror Optical System Ready for Testing
19-Jul-2023	Engineering First Light w/ComCam
05-Sep-2023	Camera Ready for Full System AI&T
14-Feb-2024	System First Light
11-Jun-2024	Test report: Final Pipelines Delivery
11-Jun-2024	Mini-Survey 2 Complete
18-Jun-2024	Operation Readiness Review Complete

Using June 2022 project controls data.
