Reminder - Code of Conduct

Harassment and unprofessional conduct (including the use of offensive language) of any kind is not permitted at any time and should be reported to:

- Andrew Connolly (ajc@astro.washington.edu),
- John Franklin Crenshaw (jfc20@uw.edu), and/or
- Alysha Shugart (ashugart@lsst.org).

full code of conduct

Rubin Observatory adheres to the principles of kindness, trust, respect, diversity, and inclusiveness in order to provide a learning environment that produces rigor and excellence.

Wear a mask if you want to!

Check name-tags for these contact comfort level stickers.

Use the confidential email rubin2023-covid@lists.lsst.org to request a test, report your test results, or ask questions.

If someone is wearing a pin like this, and it indicates a low social battery, please give them their space or offer to restart the conversation at a later time.

If you feel unsafe at any time send an email to rubin2023-helpline@lists.lsst.org

Reminder - Virtual Participation

Virtual participants should be muted when they're not speaking.

In-person participants should speak into the room microphone(s), or the chair should repeat all questions into the microphone, so that the virtual participants can hear what is said.

In the Rubin2023_PCW Slack Space, all participants can use the session's channel for Q&A and discussion.

The channel name convention is, e.g.:
#day1-mon-slot3a-intro-to-rubin

In Zoom, use the chat to:

- request to unmute to ask a question, or
- type your question so someone can speak it aloud.

The Zoom “raise hand” feature is generally harder for moderators to track, and is not preferred, but may be used at the discretion of the session chair.

Welcome!

This is the first year that the Rubin Project & Community Workshop has accepted contributed abstracts for talks and posters.

We had 14 people submit abstracts for talks.

Of these, 7 matched the topics of existing breakouts, and are being given in those sessions. The remaining 6 we are happy to host here in the Science Medley.

We will start off with invited flash talks from this year's Simonyi/NSF Scholars.

Then each speaker will have a total of ~10 minutes, including questions.
