

LSST Safety Rules LSSTsr#001

April 2019

ASSEMBLY, DISASSEMBLY AND MODIFICATION OF SCAFFOLDING

Only authorized personnel may perform tasks of assembly, disassembly or modification of scaffolding.

LSST aims to create a philosophy where safety is a non-displaceable value. For us, there are no urgent tasks that displace safety as a value.

Assembly and disassembly of Scaffolding

Each time your tasks require the use of scaffolding you should let your supervisor know. The supervisor should contact the area in charge of scaffolding assembly to jointly discuss the requirement. Once the scaffolding is operational it will be labeled with a green card that authorizes its use. If a scaffolding is out of service or in the process of being disassembled, it will be labeled with a red card. Never use scaffolding with a Red card

ASSEMBLY, DISASSEMBLY AND MODIFICATION OF SCAFFOLDING

Modification of Scaffolding

If your tasks require the modification of a scaffold, you should contact the supervisor in charge of scaffolding to request the modification

Remember the Rule

LSSTsr # 001

- ❖ **NEVER ASSEMBLE, DISASSEMBLE OR MODIFY SCAFFOLDING, THESE ARE EXCLUSIVE TASKS FOR AUTHORIZED PERSONNEL**
- ❖ **NEVER USE A SCAFFOLD THAT DOES NOT HAVE THE CORRESPONDING GREEN CARD AUTHORIZING ITS USE**
