

WORK AREA SAFETY RESTRICTIONS

The respect of the area restriction signage is a safety rule designed to ensure efficient and safety processes.

At LSST, we develop daily tasks that are related to critical risks. We have put our efforts to evaluate all the known risks of our project. We understand that there are tasks that must remain with access restrictions to people and equipment in order to ensure a safe process.

Whenever your tasks require to maintain a restricted area, you must install at the accesses to the areas the standard signage. This signage is a standardized poster for the entire project with the text "PELIGRO NO PASAR - DANGER NO TRESPASSING". Also when you see this standard signage you should proceed according to the information posted on the activity informative signage

LSST Safety Rules LSSTsr#002

WORK AREA SAFETY RESTRICTIONS

Area Restrictions

If your tasks require Restriction of work areas, you must install the standard signage.

Remember the Safety Rule LSSTsr # 002

- ❖ ALWAYS SIGNALIZE THE CRITICAL TASKS THAT REPRESENT RISKS FOR PERSONS OTHER THAN THE WORK AREA
- ❖ NEVER TRESPASSING TO AN AREA THAT IS SIGNALIZED AS A RESTRICTED AREA, IF YOU NEED TO ACCESS THE AREA YOU MUST CONTACT THE RESPONSIBLE OF THE AREA MENTIONED IN THE INFORMATIVE SIGNAGE OF THE ACTIVITY
